NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL REPORT FOR THE FOURTH (4th) QUARTER ENDED 31 DECEMBER 2018

A: EXPLANATORY NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT FOR THE QUARTER ENDED 31 DECEMBER 2018.

A1. Basis of preparation

The interim financial statements are unaudited and have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) 134: Interim Financial Reporting, Rule 9.22 and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities.

In 2017, a reorganisation exercise has been carried out through the Company’s acquisition of Sedania As Salam Capital Sdn. Bhd. (“SASC”), a subsidiary of Sedania Corporation Sdn. Bhd. Upon completion of the reorganisation exercise, the Company became the legal parent of SASC.

As SASC is in under common control before and after the reorganisation exercise, the Group applied the pooling of interest method of accounting and the consolidated financial statements have been accounted for as if the reorganisation exercise had occurred from the date when these entities were under common control.

A2. Changes in Accounting Policies

The accounting policies and methods of computation adopted by the Company and its subsidiaries (“Group”) in this unaudited condensed interim financial statements are consistent with those adopted in the preparation of the audited financial statements as at 31 December 2017.

On 1 January 2018, the Group and the Company adopted the following new and amended MFRSs and Issues Committee (“IC”) Interpretation mandatory for annual financial periods beginning on or after 1 January 2018.

Title	Effective Date
Amendments to MFRS 1 <i>Annual Improvements to MFRS Standards 2014 – 2017 Cycle</i>	1 January 2018
MFRS 9 <i>Financial Instruments (IFRS as issued by IASB in July 2014)</i>	1 January 2018
MFRS 15 <i>Revenue from Contracts with Customers</i>	1 January 2018
Clarification to MFRS 15	1 January 2018
Amendments to MFRS 2 <i>Classification and Measurement of Share-based Payment Transactions</i>	1 January 2018
Amendments to MFRS 128 <i>Annual Improvements to MFRS Standards 2014 – 2017 Cycle</i>	1 January 2018
Amendments to MFRS 4 <i>Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts</i>	See MFRS 4 Paragraph 46 and 48
IC Interpretation 22 <i>Foreign Currency Transactions and Advance Consideration</i>	1 January 2018

The adoption of the above standards and interpretation did not have any material effect on the financial performance or position of the Group and the Company except those discussed below:

MFRS 9 Financial Instruments

The Group adopted MFRS 9 on 1 January 2018. MFRS 9 introduces an expected credit loss (“ECL”) model on impairment for all financial assets that replaces the incurred loss impairment model used in MFRS 139 *Financial Instruments: Recognition and Measurement*. The ECL model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

The adoption of MFRS 9 has fundamentally changed the accounting for impairment losses for financial assets of the Group by replacing the incurred loss approach with the ECL approach.

As permitted by the transitional provisions of MFRS 9, the Group has elected not to restate comparative figures. Adjustment arising from the initial application of the new impairment model has been recognised in the opening balance of the retained earnings and the carrying amount of the financial assets as at 1 January 2018 as disclosed below:

	As per previous accounting framework 31.12.2017 RM'000	Adoption of MFRS 9 RM'000	As per current accounting framework 1.1.2018 RM'000
Trade receivables	15,403	(1,365)	14,038
Other receivables	2,489	(105)	2,384
Finance lease receivables	6,311	(709)	5,602
Deferred tax (liabilities)/asset	(56)	50	(6)
	24,147	(2,129)	22,018
Reserves (Retained earnings)	1,577	(2,129)	(552)

MFRS 15 Revenue from Contracts with Customers

The Group has adopted MFRS 15 in the immediate preceding quarter. The core principle in MFRS 15 is that an entity recognised revenue to depict the transfer of promised goods and services to customers for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

The Group has assessed the effects of applying the standard on the financial statements and concluded that the adoption of the Standard has had no material impact on the financial statements of the Group.

Standards issued but not yet effective

The following are accounting standards, amendments and interpretation of the MFRS Framework that have been issued by MASB but have not been adopted by the Group and the Company.

(i) Statement of Profit and Loss and Other Comprehensive Income

(a) Performance of current quarter against the corresponding quarter

The Group recorded revenue of RM2.10 million, a decline of approximately 68% for the current quarter under review (4Q 2018) as compared to the preceding year's corresponding quarter revenue of RM6.65 million (4Q 2017). The Group recorded an operating loss before tax of RM3.58 million in 4Q 2018 as compared to operating profit before tax of RM0.85 million in 4Q 2017. The decline in performance is mainly due to lower revenue contributions from IoT and GreenTech segments and the impact of MFRS 9 impairment expense recognised on trade and finance lease receivables in 4Q 2018 as compared to 4Q 2017.

As a result, the Group recorded a loss after tax of RM3.15 million in 4Q 2018 as compared to a profit after tax of RM0.39 million in 4Q 2017.

(b) Performance of current year against the corresponding year

The Group recorded total revenue of RM12.34 million for the year ended 31 December 2018, a decline of 55% or RM14.95 million compared to last year, contributed by lower sales contributions from IoT and slow take-off from GreenTech projects. On the other hand, FinTech segment performed better with an improved revenue of RM3.95 million in the current year as compared to RM3.83 million last year.

Overall operating expenses were higher mainly due to the impact of MFRS 9 impairment expense recognised on trade and finance lease receivables amounting to RM2.84 million in the current year as compared to nil in the previous year.

As a result of lower revenue and impairment expense recognised on trade and finance lease receivables during the year, the Group recorded a loss after tax of RM4.36 million during the year as compared to a profit after tax of RM1.57 million in financial year ended 31 December 2017.

(ii) Statement of Financial Position

As at 31 December 2018, total equity attributable to owners of the Company was RM26.33 million as compared to RM32.73 million as at 31 December 2017. This reduction was due to negative adjustments made to opening retained profits as a result of MFRS 9 adoption, which decreased the total equity and net assets of the Group. Total assets decreased by 23.49% to RM33.17 million from RM43.35 million as at 31 December 2018 mainly due to reduction in cash and cash equivalents and impairment recognised on trade and finance lease receivables.

Total liabilities decreased by 35.59% to RM6.84 million from RM10.62 million as at 31 December 2018. The reduction in total liabilities is driven by the payment of profit guarantee and accrued interest of RM1.53 million for the purchase of SASC shares, as well as a reduction in trade and other payables of RM2.23 million.

(iii) Statement of Cash Flows

The net cash used from operating activities of the Group was RM1.71 million for the twelve (12) months ended 31 December 2018 as compared to net cash used in operating activities of RM3.50 million in the previous corresponding period in 2017.

Net cash arising from investing activities was RM0.25 million in the twelve (12) months ended 31 December 2018, as compared to a net cash used in investing activities of RM0.61 million in the previous corresponding period in 2017.

Net cash used in financing activities was RM1.14 million during the period against RM2.13 million used for the corresponding period in 2017.

Overall cash and cash equivalent decreased by RM2.60 million as compared with opening cash and cash equivalents as at 1 January 2018. The cash and cash equivalents of the Group was RM13.20 million at 31 December 2018.

Segmental analysis

a. Current quarter ended 31 December 2018 ("4Q 2018") compared with previous corresponding quarter ended 31 December 2017 ("4Q 2017"):

Sharing platform

Sharing platform recorded a 4Q 2018 revenue of RM0.83 million which represents a 34.57% decline, compared to 4Q 2017 sharing platform revenue of RM1.27 million. The segment also recorded a segment operating loss of RM0.54 million, a 81.61% increase from 4Q 2017,

largely due to the recognition of impairment expense on trade receivables of RM0.86 million.

Green Technology solutions

The revenue recorded by GreenTech segment was RM0.06 million in 4Q 2018 as compared to RM1.49 million in 4Q 2017. Revenue from this segment is a continuation of the existing contract with a partner for GreenTech solutions for a financial institution.

The segment recorded an operating loss before tax in the current quarter of RM0.85 million as compared to a segment operating profit before tax of RM0.29 million in 4Q 2017. This was due to common operating expenses/indirect cost allocated on a reasonable basis to this segment for whose benefit the expense was incurred.

IoT solutions

There was no revenue recorded from this segment in 4Q 2018, as compared to a revenue of RM2.99 million in 4Q 2017. All IoT solutions for a fire safety system has been delivered in 1Q 2018.

The segment recorded an operating loss before tax of RM2.01 million in 4Q 2018 largely due to impairment expense recognised on trade receivables of RM1.69 million in 4Q 2018 as compared to 4Q 2017.

B3. Prospects for 2019

The Board of Directors is of the view that the operating performance of the Group for the financial year ended 31 December 2018 was challenging and the Board continues to be cautious in its business outlook in the short term.

However, the Board is encouraged by the continuous positive contributions from the FinTech segment and its new innovations that are expected to go-to-market in 2019.

Despite a disappointing IoT segment performance in 2018, the prospects of the segment are expected to improve in 2019. The Group is also making good progress in the GreenTech segment, despite an initial delay of a particular project as a result of its extended execution time. New projects acquired further strengthens the Greentech segment's prospects in 2019 and the Board expects positive contributions from this segment in the year.

The Group will continue its efforts to focus on measures in improving operational performances whilst exercising prudent financial and risk management across the Group.
